

## Softshare has all your ACORD e-commerce needs covered

Softshare Delta, our popular data translation application, fully supports the electronic document standards developed by ACORD, the Association for Cooperative Operations Research and Development. Using Delta's suite of pre-modeled JV XML and EDIFACT transactions, your company can easily convert insurance data to and from ACORD's electronic document formats for exchange within the insurance industry.

Softshare Delta's powerful data translation capabilities let you not only create and receive ACORD-compliant data, but seamlessly integrate it into your organization's existing operations as well. In addition, Delta's any-to-any [mapping capabilities](#) let you translate to and from a variety of data formats including EDI, XML, flat file, database, and HTML, for complete enterprise integration.

The best news yet is that, for all its sophistication, Delta is reasonably priced—starting at less than \$10,000. And, since Delta is backed by Softshare's renowned customer service and 15+ years of e-commerce experience, you can rest secure in the knowledge that you're getting an incredible value for your investment.

The Softshare ACORD Package includes a license for [Softshare Delta](#) and [ECS](#) in addition to the following completed data translation maps:

- EDIFACT RETACC to MS SQL Server
- EDIFACT RESETT to MS SQL Server
- EDIFACT REBORD to MS SQL Server
- EDIFACT RECLAM to MS SQL Server
- EDIFACT RETACC to Flat File
- EDIFACT RESETT to Flat File
- EDIFACT REBORD to Flat File
- EDIFACT RECLAM to Flat File

Flat File to EDIFACT RETACC  
Flat File to EDIFACT RESETT  
Flat File to EDIFACT REBORD  
Flat File to EDIFACT RECLAM  
EDIFACT RETACC to HTML  
EDIFACT RESETT to HTML  
EDIFACT RECLAM to HTML  
EDIFACT RETACC to JV XML  
EDIFACT RESETT to JV XML  
EDIFACT REBORD to JV XML  
EDIFACT RECLAM to JV XML  
JV XML to RETACC Flat File  
JV XML to RESETT Flat File  
JV XML to REBORD Flat File  
JV XML to RECLAM Flat File
